

PARIS21 2010–2014 Logical Framework

Part I: Goals, Purpose, and Outputs

Narrative Summary	Objectively Verifiable Indicators		Assumptions/ Risks
	Indicators	Sources	
Partnership Super-Goal:			
Achieve national and international Development Goals, especially the Millennium Development Goals (MDGs).	MDG indicators	UNSD	
Partnership Goal:			
Develop a culture of Management for Development Results (MfDR). Target Group: Countries eligible for IDA resources plus all LMICs and all African countries (118 countries as of Dec 2009)	Indicator G1 : % of countries that have developed sound frameworks for monitoring development results Baseline 2008: 9% Milestone 2012: 24% Target 2014: 40%	OECD Progress Report on the Implementation of the Paris Declaration on Aid Effectiveness and the Accra Agenda for Action (AAA)	Better policies and budgeting processes based and managed through better use of better statistics contribute to achieving development objectives including the MDGs. The involvement of policymakers and progress towards development objectives will sustain the MfDR capacities in the long-run.
	Indicator G2 : Average score on the use of statistics in policy making process Baseline 2010: 52.9 Milestone 2012: 60 Target 2014: 70	PARIS21 Scoring System on Use of Statistics	
Partnership Purpose:			

PARIS21 2010–2014 Logical Framework

Narrative Summary	Objectively Verifiable Indicators		Assumptions/ Risks
	Indicators	Sources	
<p>Build and sustain the capacity to generate the statistical data needed to support development through an effective use of statistics to inform policy, monitor its implementation, promote accountability and measure development results.</p>	<p>Indicator GP1: % of IDA borrowers (with a population of 1 million or more) whose World Bank Statistical Capacity Indicator scores have increased.</p> <p>Main target: Baseline 2009: 62% Milestone 2012: 70% Target 2014: 80%</p> <p>Sub target 1: Percentage of IDA-eligible countries having conducted at least one population census in the current round</p> <p>Baseline 2009: 33% Milestone 2012: 86% Target 2014: 96%</p> <p>Sub target 2: Increase in the percentage of IDA eligible countries with a periodicity of 5 years or less for poverty related household surveys</p> <p>Baseline 2009: N/A Milestone 2012: 5 Target 2014: 10</p>	<p>World Bank</p>	<p>The availability of improved statistics tailored to the needs of policymaking and monitoring and the full implementation of the commitments of countries partners and donors in the Paris Declaration will lead to the use of statistics to manage for development results.</p>

PARIS21 2010–2014 Logical Framework

Narrative Summary	Objectively Verifiable Indicators		Assumptions/ Risks
	Indicators	Sources	
	<p>Indicator GP1bis: % of 117 target countries having at least three non-modelled data points for at least 20 of 28 selected MDG Indicators</p> <p>Baseline 2010: 7.6% Milestone 2012: 12% Target 2014: 15%</p>	UNSD	
Partnership Outputs:			
<p>1. Partner countries design and implement comprehensive and operational NSDSs that fulfil needs especially of Development policies and Performance Budgeting.</p>	<p>Indicator GPO1: % of target countries that have adopted an NSDS that covers the logframe reporting period</p> <p>Baseline 2009: 52% Milestone 2012: 80% Target 2014: 93%</p>	PARIS21 NSDS Progress report	<p>(i) Well-designed NSDSs are integrated into national development policy processes meeting their needs, funded through national budget and donor support, and are implemented. (ii) High level policymakers are committed to the successful implementation of NSDSs. (iii) Donors are involved in the design of NSDSs and fully align their assistance frameworks on the NSDSs. (iv) Systemic approach will lead to more efficient NSSs.</p>
	<p>Indicator GPO1bis: % of IDA-eligible countries with an NSDS covering the logframe period that scores more than 75% of the total score defined by the NSDS QAF</p> <p>Baseline 2010: Milestone 2012: Target 2014:</p>	(i) NSDS Quality Assessment Framework and possibly (ii) Peer reviews	

PARIS21 2010–2014 Logical Framework

Narrative Summary	Objectively Verifiable Indicators		Assumptions/ Risks
	Indicators	Sources	
<p>2. Support to Statistics is adequate, well aligned with NSDSs and well coordinated.</p>	<p>Indicator GPO2: Share of aid to statistics (as reported in PRESS) in the total ODA over a 3-year period starting from 2007-09</p> <p>Baseline 2007-2009: 0.2% Milestone 2010-2012: 0.3% Target 2012-2014: 0.5%</p>	<p>Partner Report on the Support to Statistics (PRESS) & DAC ODA figures</p>	<p>(i) ODA to statistics is increased by donors consistently with the MfDR commitments. (ii) Partners and Donors fully implement the Paris Declaration and AAA to enhance the effectiveness of assistance to the development of statistics. (iii) Better dialogue between Partners and Donors will lead to more and better investment in the statistics.</p>
	<p>Indicator GPO2bis: Share of aid to statistics (as reported in PRESS) aligned with NSDS</p> <p>Baseline 2010: 31% Milestone 2012: 45% Target 2014: 55%</p>	<p>PRESS</p>	
	<p>Indicator GPO2ter: % of countries who have a Country-Donor coordination mechanism in the field of statistical development and where this mechanism is perceived as satisfactory or better</p> <p>Baseline 2010: 27% Milestone 2012: 53% Target 2014: 70%</p>	<p>PRESS</p>	

PARIS21 2010–2014 Logical Framework

Narrative Summary	Objectively Verifiable Indicators		Assumptions/ Risks
	Indicators	Sources	
3. International and Regional Statistical Programs are on a sustainable financial and technical footing.	Indicator GPO3 : a perception indicator measuring developing country satisfaction with 9 intl programmes. (Scale 1-5. 1=ineffective; 5=excellent) Baseline 2010: 3.7 Milestone 2012: 4.0 Target 2014: 4.2	PARIS21-administered Perception Survey (S1 and S2)	Implementation agencies are committed to ensure their alignment with the NSDSs and build statistical capacity in partner countries while reinforcing the regional and global data comparability.
4. Countries increase capacities to document, archive, disseminate and harmonise survey micro-data and metadata in line with IHSN Principles.	Indicator GPO4 : % of countries with a national data archiving system Baseline 2010: 25% Milestone 2012: 40% Target 2014: 60%	PARIS21-administered Perception Survey (S1)	(i) A strategic approach is adopted for these programs at the global and regional levels to ensure their effectiveness and their sustainability. (ii) Dissemination of innovation products through the use of ICTs is systematic. (iii) Donors are committed to a stable funding of IHSN/ADP and similar programs.
	Indicator GPO4bis : % of countries giving access to micro-data or metadata through website Baseline 2010: 15% Milestone 2012: 25% Target 2014: 50%	PARIS21-administered Perception Survey (S1)	
5. Governance of the global statistical system is improved	Indicator GPO5 : Perception indicator on the quality of governance of global statistical system. (Scale 1-5. 1=ineffective; 5=excellent)	PARIS21-administered Perception Survey (S1 and S2)	(i) Governments, international organisations and development agencies work closely and effectively to enhance the global statistical system and the availability of improved data to monitor international commitments. (ii) The status of statistics in the major international initiatives is fostered.

PARIS21 2010–2014 Logical Framework

Narrative Summary	Objectively Verifiable Indicators		Assumptions/ Risks
	Indicators	Sources	
	Baseline 2010: 3.3 Milestone 2012: 3.4 Target 2014: 4.0		
	Indicator GPO5bis : % of the 118 logframe focus countries attending annual UNSC meetings Baseline 2010: 59% Milestone 2012: 70% Target 2014: 75%	UNSD	
	Indicator GPO5ter : % of the 118 logframe focus countries attending statistical committees of UN regional commissions Baseline 2010: 73.7% Milestone 2012: 75% Target 2014: 80%	UNECA, UNECLAC, UNESCWA, UNESCAP, UNECE	
Secretariat Outputs:			
1. Facilitate better design and successful implementation of NSDSs in developing countries	Indicator SO1 : Perception indicator on the quality of PARIS21 Secretariat advisory services. (Scale 1-5. 1=ineffective; 5=excellent) Baseline 2010: 3.5 Milestone 2012: 4.0 Target 2014: 4.2	PARIS21-administered Perception Survey (S1 and S2)	(i) PARIS21 Secretariat has access to Partner countries' policymakers that are committed to the successful implementation of NSDSs. (ii) The Secretariat receives adequate funding.

PARIS21 2010–2014 Logical Framework

Narrative Summary	Objectively Verifiable Indicators		Assumptions/ Risks
	Indicators	Sources	
<p>2. Promote an increase of resources devoted to the Development of Statistics, in conformity with the Paris Declaration and the AAA</p>	<p>Indicator SO2: Perception indicator on stakeholders satisfaction with the advocacy work. (Scale 1-5. 1=ineffective; 5=excellent.)</p> <p>Baseline 2010: 3.6 Milestone 2012: 4.0 Target 2014: 4.2</p>	<p>PARIS21-administered Perception Survey (S1 and S2)</p>	<p>(i) Partner countries' policymakers and Donors' representatives are committed to enhance aid efficiency. (ii) All donors respond to the PRESS Survey.</p>
<p>3. Provide support to Developing Countries to document, archive, disseminate and harmonise survey micro-data and metadata in line with IHSN Principles.</p>	<p>Indicator SO3: % of countries that have a national data archiving system with ADP support</p> <p>Baseline 2009: 15% Milestone 2012: 40% Target 2014: 70%</p>	<p>Annual PARIS21 Progress Report</p>	<p>Programs Implementation Agencies cooperate with the Partner countries and the Secretariat to ensure their mainstreaming in NSDS processes.</p>
	<p>Indicator SO3bis: % of countries giving access to micro-data or metadata through website with ADP support</p> <p>Baseline 2009: 8% Milestone 2012: 30% Target 2014: 70%</p>	<p>Annual PARIS21 Progress Report</p>	
<p>4. Contribute to a better coordination between members of the Partnership</p>	<p>Indicator SO4: % of Board members who find Board meetings "good" or "very good" across 9 questions</p>	<p>Annual Survey of PARIS21 Board members</p>	<p>All the Partnership members are determined to enhance the coordination and the PARIS21 Governance.</p>

PARIS21 2010–2014 Logical Framework

Narrative Summary	Objectively Verifiable Indicators		Assumptions/ Risks
	Indicators	Sources	
	Baseline 2010: 80% Milestone 2012: 85% Target 2014: 90%		

PARIS21 2010–2014 Logical Framework

Part II: Broad Orientations of Work presented by components

Narrative Summary	Objectively Verifiable Indicators		Results					Assumptions/ Risks
	Indicators	Sources	2010	2011	2012	2013	2014	
A. PARTNERSHIP								
Coordination:								
Provide data on support to statistics through the PRESS exercise and use PRESS information	Indicator 1: # of respondents	PRESS	63					The CCSA recommendations and the new PARIS21 Governance Arrangements are implemented and increase the participation of the Donors in the PRESS Annual Survey PRESS becomes more influential to raise the value of participation
Members of the Partnership implement the governance reform and participate actively in PARIS21 Board and Executive Committee meetings	Indicator 2: Frequency of Board & Executive Committee meetings, participation rates	Annual PARIS21 Progress Report	5					Programmes are well-funded, Agencies are working with countries to ensure that the Programmes Implementation build and sustain capacities UNSD is monitoring the whole process that takes into account the Country Satisfaction
Advocacy:								
Raise the profile of PARIS21 in international and regional meetings	Indicator 3: Number of international meetings with an agenda item on PARIS21 issues	Annual PARIS21 Progress Report						The PARIS21 Secretariat advocacy activities are well-funded
Take advantage of national and international statistical celebrations to raise the profile of PARIS21	Indicator 4: Percentage of target countries celebrating a national Statistics Day	Annual PARIS21 Progress Report	58%					
NSDSs:								
Design, implement, and monitor NSDSs and reports on the	Indicator 5: % of target countries that have adopted an NSDS that covers the logframe	Annual PARIS21 Progress Report	52%					Countries are committed to design, implement and monitor

PARIS21 2010–2014 Logical Framework

Narrative Summary	Objectively Verifiable Indicators		Results					Assumptions/ Risks
	Indicators	Sources	2010	2011	2012	2013	2014	
implementation and total expenditures to Statistics	reporting period							the NSDSs approach in line with guidelines Donors are involved in the process and their interventions are fully aligned with the NSDS priorities Donors funded adequately the PARIS21 Secretariat and TFSCB to secure needed resources for NSDS
	Indicator 6: Number of NSDS progress reports produced		2					
	Indicator 7: Number of Country Reports on the Support to Statistics		0					
Form and participate in country-level partnerships on statistics	Indicator 8: % of countries who have a Country-Donor coordination mechanism in the field of statistical development and where this mechanism is perceived as satisfactory or better	Annual PARIS21 Progress Report	27%					Regional Institutions are using NSDS to design and implement the regional statistical capacity programmes
Engage policymakers and all NSS entities in the design, implementation and monitoring of NSDSs	Indicator 9: Number of Countries with an National Statistical Council led by a Minister or similar ranking	Annual PARIS21 Progress Report						
	Indicator 10: Number of NSDSs that cover the 3 priority sectors (ag, edu, health) in IDA-eligible countries							
Develop Sector Statistical Plans integrated into NSDS and Sector Strategies and ensure the reporting on their implementation, including public spending	Indicator 11: Number of countries that have sectoral statistical development plans in ag, edu, health	Annual PARIS21 Progress Report						
Provide methodological input to the NSDS guidance	Indicator 12: Number of contributors whose inputs were incorporated	Annual PARIS21 Progress Report	0					
Develop Regional Strategies for the Development of Statistics	Indicator 13: Number of RSDSs	Annual PARIS21 Progress Report	4					

PARIS21 2010–2014 Logical Framework

Narrative Summary	Objectively Verifiable Indicators		Results					Assumptions/ Risks
	Indicators	Sources	2010	2011	2012	2013	2014	
Provide adequate funding for statistical capacity development including the PARIS21 Secretariat	Indicator 14: Funding gap for the Secretariat	Annual PARIS21 Progress Report	19%	32%				
Knowledge for Statistics:								
Establish a Task Team to develop a programme of research and development to modernize statistical tools and technologies and to promote their use, especially in developing countries	Indicator 15: Indicators to be proposed by the Task Team							Donors and Countries are engaging in a strategy of Knowledge for Statistics to speed up and sustain the Development of Statistics
Establish a Task Team to develop a programme to increase the supply of trained statisticians	Indicator 16: Indicators to be proposed by the Task Team							
Implement IHSN/ADP program	Indicator 17: # of countries and national agencies supported	Annual PARIS21 Progress Report	55					
B. SECRETARIAT								
Coordination:								
Expand engagement by the wider PARIS21 partnership through a more comprehensive website, disseminated notes and a comprehensive, up-to-date calendar of events	Indicator 18: Number of hits on new PARIS21 website, launched in October 2010	Google Analytics	8492					Partnership activities lead to strengthened and better co-ordinated partnership programmes. Policy-making leaders and institutions are involved in the partnership programmes to ensure they are responsive to their needs
Hold effective Consortium meeting involving a broad representation of stakeholders	Indicator 19: Number (1) of Consortium meetings	Consortium report	0					

PARIS21 2010–2014 Logical Framework

Narrative Summary	Objectively Verifiable Indicators		Results					Assumptions/ Risks
	Indicators	Sources	2010	2011	2012	2013	2014	
Organise regular and effective Board and Executive Committee meetings	Indicator 20: Number of Board and Executive Committee meetings	Meeting Minutes	5					Data on support to statistics advocates for more resources and better alignment and coordination.
Support joint country missions to promote Donor coordination	Indicator 21: Annual number of joint missions	Annual PARIS21 Progress Report	16					
Conduct annual rounds of the Partner Report on Support to Statistics (PRESS)	Indicator 22: One PRESS Report yearly	PRESS Publication	1					
Advocacy:								
Develop and deliver PARIS21 advocacy strategy, messages, materials, interviews, and events adapted to audiences with a focus on the use of statistics and the long term influence on statistical culture	Indicator 23: Number of leaflets printed and distributed	Annual PARIS21 Progress Report	25					Advocacy messages are heard and acted upon.
Roll out effective country advocacy tool kits to help countries develop and implement their own advocacy strategies	Indicator 24: Number of countries helped to design, implement or monitor impact of advocacy strategies	Annual PARIS21 Progress Report	22					Policymakers are aware of the importance of Statistics to manage for Development Results leading to successful implementation of NSDSs.
NSDSs:								
Facilitate successful country events and regional workshops; and strengthen regional and country partnerships	Indicator 25: Number of Secretariat-organised events held in countries	Annual PARIS21 Progress Report	28					Recommendations and follow-up lead to strengthened and better co-ordinated statistical programmes. Updates contribute to improvements in NSDS quality, a better funding both through national budget and development assistance.

PARIS21 2010–2014 Logical Framework

Narrative Summary	Objectively Verifiable Indicators		Results					Assumptions/ Risks
	Indicators	Sources	2010	2011	2012	2013	2014	
Update the guidelines including the integration in development policies and budgeting, the Medium Term Expenditure Frameworks (MTEF) for Statistics, Donor coordination, the implementation of regional and international statistical programs	Indicator 26: Number (1) of updated guidelines	Annual PARIS21 Progress Report	0					Regional and International Programs are better channelled through NSDSs.
Develop an NSDS quality assessment framework	Indicator 27: Study completed, indicators related to the implementation set up later	Annual PARIS21 Progress Report	1					
Organise peer reviews and expand to include data users	Indicator 28: Annual number of peer reviews conducted	Annual PARIS21 Progress Report	2					
Encourage design and publication of comprehensive reports on country progress with NSDS and statistical development	Indicator 29: Annual number of country reports on NSDS progress	Annual PARIS21 Progress Report	0					
Draft guidelines for the NSDS progress reports and CRESS	Indicator 30: Guidelines completed	Annual PARIS21 Progress Report	0					
Draft guidelines for a better integration of sector statistics in NSDSs	Indicator 31: Number of sectors covered	Annual PARIS21 Progress Report	1					
Organize regional events bringing together statisticians and data users	Indicator 32: Number of Secretariat-organised regional events	Annual PARIS21 Progress Report	2					
	Indicator 33: Total number of participants at regional events	Meeting minutes	39					
Provide advice to the design or update, implementation and monitoring of NSDSs and RSDSs	Indicator 34: Number of countries supported	Annual PARIS21 Progress Report	37					
	Indicator 35: Number of missions conducted	Annual PARIS21 Progress Report	49					
Knowledge for Statistics:								

PARIS21 2010–2014 Logical Framework

Narrative Summary	Objectively Verifiable Indicators		Results					Assumptions/ Risks
	Indicators	Sources	2010	2011	2012	2013	2014	
Support the regional statistical training and academic institutions	Indicator 36: Number of interventions	Annual PARIS21 Progress Report	2					<p>Higher education institutions produce an increasing number of qualified statisticians.</p> <p>Statistics are introduced at all levels of education to develop long term culture.</p> <p>Innovation leads to efficiency and quality gains.</p> <p>The use of ICTs increases access to data for users.</p>
