

# NSDS STATUS IN IDA COUNTRIES

*Progress report as of 12 November 2007*

The following table presents the status of NSDS in International Development Association (IDA) borrower countries as of early November 2007. The information is drawn from four principal sources:

- Direct information provided by countries;
- Country work of PARIS21 Regional Advisors;
- Websites of key development partners (in particular the World Bank's Country Statistical Information Database);
- Websites of countries' national statistical offices.

The table is sorted by geographical region and by status of the NSDS process, namely countries with existing strategies, countries in the process of designing a strategy, and countries with no NSDS process. It should be noted that, while existing strategies may not necessarily follow the guidelines of the NSDS, most strategies currently being designed follow the guidelines. This table will be updated on a regular basis, as information is received, and will be posted on the PARIS21 website.

Country	Existing strategy		Next NSDS		Statcap approved	PRSP Time span
	Name	Time Span	Status	NSDS Time span		
<b>AFRICA - Countries currently implementing a strategy</b>						
Tanzania	Poverty Monitoring Master Plan in existence.	2008 - 2018	Being designed			2005-2008
