

**“Shaping Sub-National Statistical Systems
to Meet SDG Requirement”**

Set-up of Sub-National Statistics System: PHILIPPINES

ROSALINDA P. BAUTISTA
Philippine Statistics Authority (PSA)

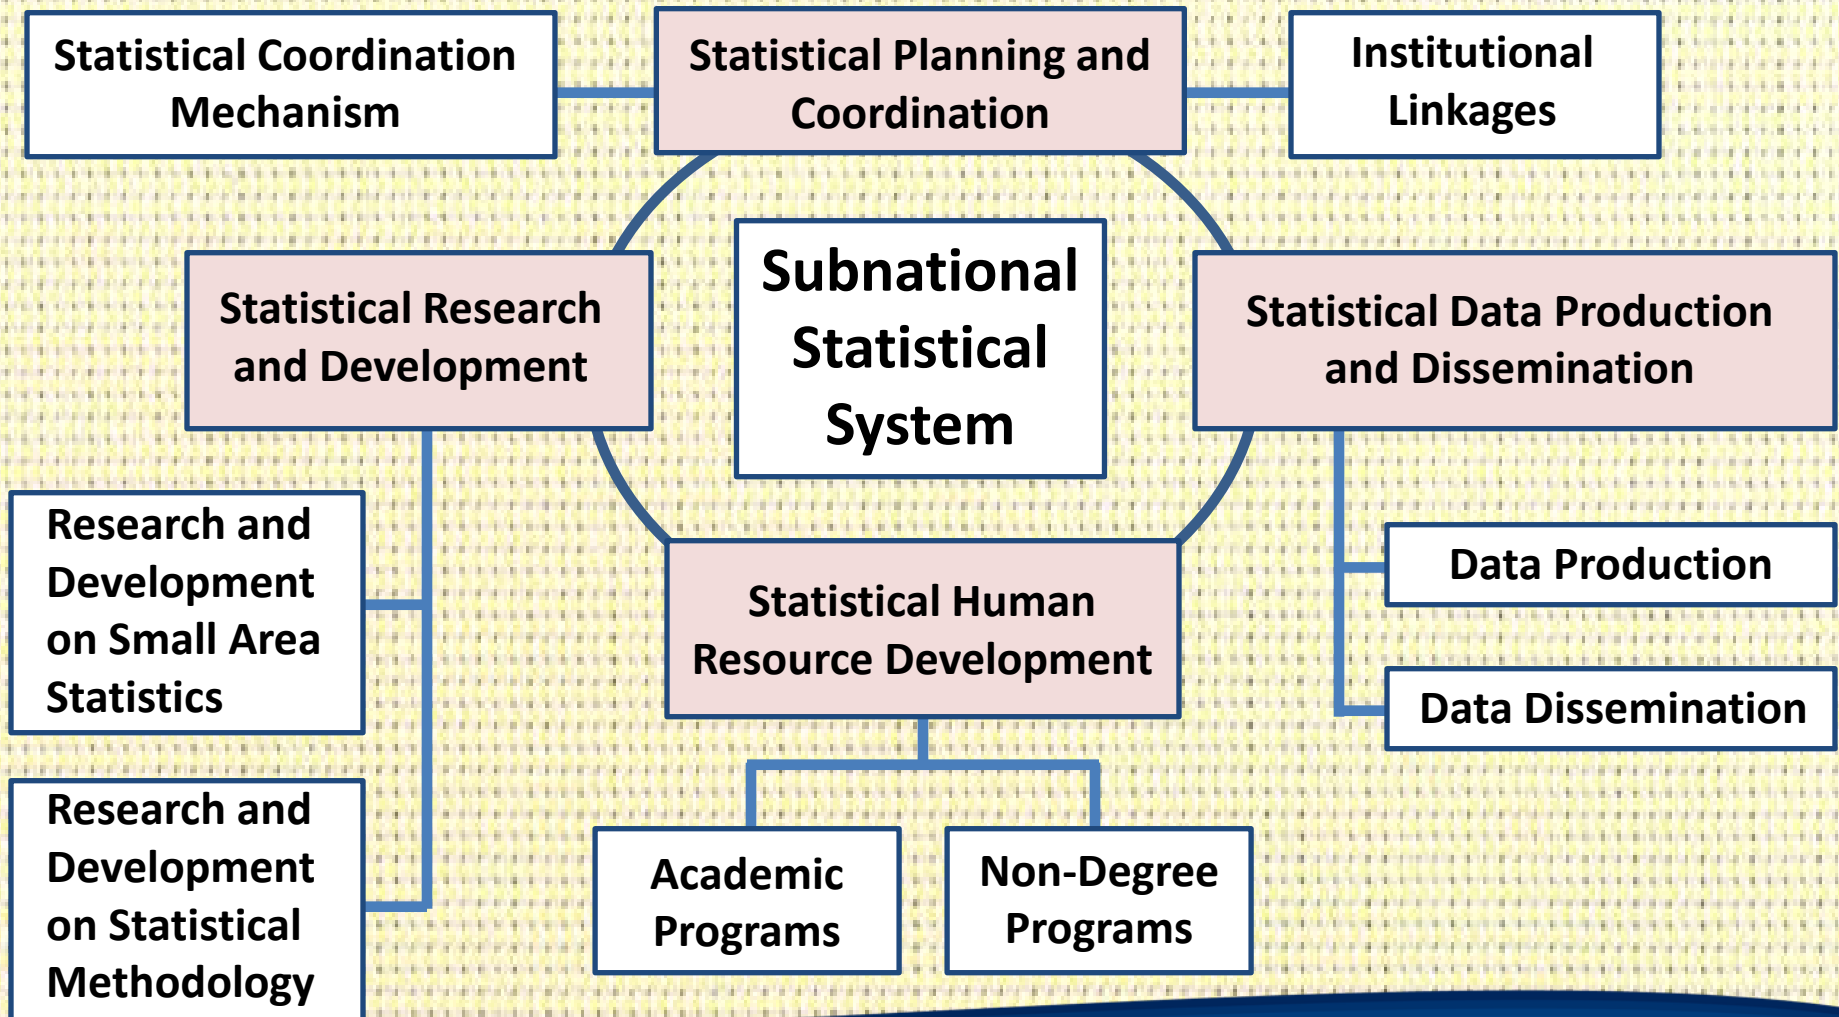

Existing Administrative Arrangements Between National and Subnational System

Existing Administrative Arrangements Between National and Subnational System

Conceptual Framework

Sub-national Strategic Plan for the Development of Statistics on Sub-national Data

Strategic Planning Framework

To deliver better quality statistics in support of evidence-based policymaking, program implementation and monitoring

To increase user understanding, capacity, and trust for wider and rational use of statistics

To strengthen statistical governance, coordination, and research and development at the national and local levels

To enhance capacity of MSAs and other data producers at the national and local levels and to strengthen cooperation of respondents and data providers for better quality statistics

To increase investment and institutionalize a sustainable resource mobilization strategy for statistics

Outcomes and Key Programs

More timely, accessible, coherent, comparable, comprehensive, and relevant statistics

- **Better quality statistics in support of PDP 2011-2016**
- **New statistics social protection, governance, security, disaster environment, climate change, etc.**
- **Improved local-levels statistics through improved national surveys and information systems, CBMS and LGPMS**
- **Credible and dependable administrative information systems**

Examples of Data Collected

- **Local-level data through censuses and surveys and administrative-based registration, reporting and monitoring system**
- **National Household Targeting System for Poverty Reduction (NHTS-PR)**
- **Provincial, city and municipal profiles**

Dissemination and Use

- **Statistics web portals
(Regional or Local-level portals)**
- **Statistical information centers in provinces, cities
and municipalities
(including Accredited Data Centers)**
- **Community statistical data boards in every
province, city, municipality and barangay**

Dissemination and Use

- **Statistics appreciation seminars for regional and local executives and the private sector**
- **Training of LGUs and other local statistics users**
- **Enhanced advocacy for dissemination of local-level statistics**

Major Challenges/Key Issues

- **Data gaps**
- **No clear policy and legal basis for local-level statistics**
- **Weak/Inadequate statistical policies, standards, and coordination mechanism**
- **Limited/difficult access to local statistics, i.e. data, microdata and metadata**

Major Challenges/Key Issues

- **Inadequate statistical competencies of LGUs and NGAs**
- **Perceived low appreciation of statistics among local stakeholders – regional and local executives and media**
- **Need for more statistical research and development**
- **Inadequate resources for local-level statistics**

Conclusions and Recommendations

- **Address the issue on legal basis for local-level statistics**
- **Strengthen statistical competencies of LGUs and NGAs**
- **Continue advocacy on appreciation of statistics among local stakeholders – regional and local executives and the media**
- **Use of indicators that can be easily generated at the local-level (for SDG indicators)**
