**This note was prepared by Mr Brian Hammond, PARIS21 Secretariat**

# Information Exchange

One proposed activity for PARIS21 is to provide a database of statistical projects that donors are engaged in as well as a "diary" of upcoming events.

Three donors - Germany, Norway and the UK - have already provided some information, which is attached. The information for Germany and the UK uses a template that shows the standard information that might be collected for the information exchange.

Also attached is a table of financial commitments to project activities, as reported to the Development Assistance Committee's Creditor Reporting System, which contain the word "statistics" in the project title. The information is not complete for all donors, and very partial for 1999, but shows what can be provided from an existing system.

**List of current/planned statistical capacity building projects - supplied to PARIS21 - June 2000**

Reporting country	Extending agency		Currency (000s)			
<b>GERMANY</b>	<b>GTZ</b>					
Donor project no.	Recipient country	Project title	Amount committed	Expected starting date	Expected completion date	Brief description of project showing nature of assistance provided
<b>Grants</b>						
1995.4804.1	Kazachstan	Support to National Statistical Agency (NSA)	175 ECU	1997	2000	Harmonising State statistics with international requirements
