

Bern Network on Financing Data for Development

2 March – New York, USA

BERN NETWORK

Objective

The Bern Network seeks to **catalyse actions to support improvements to the quantity and quality of funding** for development data for UNWDF 2020 together with a diverse coalition of governments and other stakeholders.

Areas for action

- 1. Mobilise domestic resources**
- 2. Scale-up funding**
- 3. Boost efficiency of aid**
- 4. Strengthen collaboration**
- 4. Leverage sectoral funds**

Latest activities

- Elaborating a **Clearing-house for Financing Development Data**.
- Exploring collaboration to develop and test **principles for more effective cooperation on data and statistics**.
- Hosting **events and consultations** to feed into the co-creation process:
 - December 2019 (Paris, France)
 - January 2020 (Paris, France)
 - February 2020 (Washington D.C., USA)

Next steps

- Further develop the **clearing-house** through **analytical work** and a **survey to collect inputs from potential users** on needs, functions and services.
- Continue collaborative **exploratory work** on developing **country principles**.
- Develop a **commitment** around **leveraging sectoral funding**.
- Continue organising **consultations** and **events** and enhancing **communications**.
